

Become part of our dynamic and highly motivated team and help us shape the future of AI based learning and development. We enable our customers to upskill their workforce in all skills relevant for the future and thus remain competitive. On the Peers platform we create learning paths that combine the best learning offers in the market and recommend the best next move for each individual employee. You will work together with a strong C-Level team and bring our amazing AI-enabled platform business forward.

Become a

SENIOR BACKEND DEVELOPER (m/w/x)

for our team in Berlin.

YOUR TASKS

- Take responsibility for the backend of a personnel development platform
- Be involved and participate in the overall application lifecycle
- Develop a functional web application with high-quality, reusable code
- Design and maintain state of the art system architecture
- Implement and maintain standard dev op techniques
- Work and collaborate as part of a multidisciplinary scrum team

YOUR PROFILE

- 5+ years of experience as a backend developer
- BA degree in Computer Science or similar relevant field
- Strong object oriented programming skills (java, python, scala, ...)
- Experience with PostgreSQL
- Experienced with agile programming methodologies
- Work independently and with a high degree of autonomy
- Fluent in English (written and verbal), German is a plus

WHY US

- Work closely with our founders and incredible team and shape our product
- Build up a meaningful product that takes care of every company's most valuable asset: their employees
- Feel empowered to take responsibility from day one, knowing that we have got your back through our positive feedback culture and team spirit
- Enjoy the options of working in our awesome co-working space or from home and flexible working hours as part of the Peers work culture
